

MCI WOODWORK

Where craft meets vision.

COMMERCIAL MILLWORK & FABRICATION / 2026

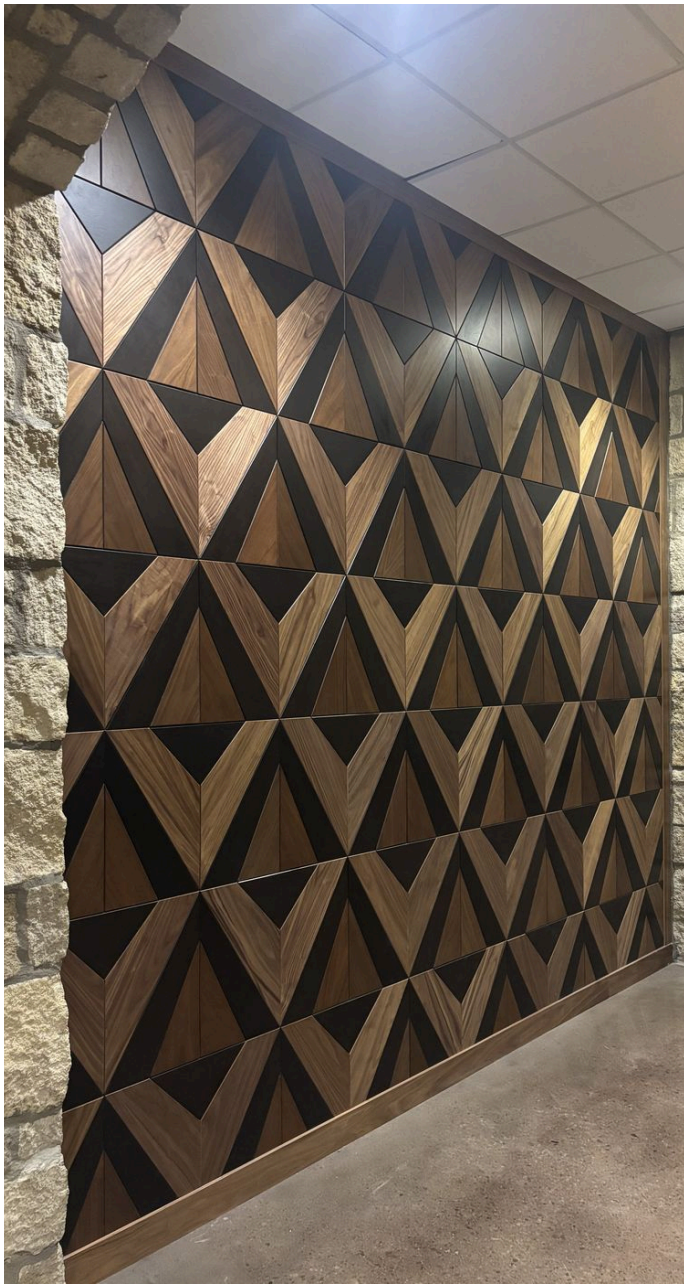

PHOENIX, ARIZONA / EST. 2011 / 500+ PROJECTS / 15+ STATES

WHO WE ARE

One shop behind the entire interior package.

MCI Woodwork is a custom commercial millwork and fabrication company based in Phoenix, Arizona. Since 2011 we have drawn, engineered, fabricated, finished and installed architectural millwork for hospitality groups, hotel brands, casinos, restaurant operators and senior-living developers across the western United States.

Millwork, stone and solid surface, metalwork, glass and upholstery all happen under one roof — one set of shop drawings, one project manager, one crew on site. A package that would normally be split across five subcontractors arrives as one coordinated scope, on one schedule, with one company answering for it.

2011	500+	15+	6
FOUNDED	PROJECTS DELIVERED	STATES SERVED	IN-HOUSE TRADES

WHAT SETS THE WORK APART

One team. Every stage.

PRECISION MACHINING / PHOENIX WORKSHOP

01 / ENGINEERING

Shop drawings and coordination before fabrication begins.

02 / CRAFT

CNC machining, assembly and finishing on our own shop floor.

03 / INSTALLATION

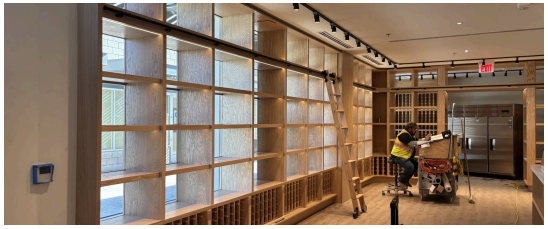

A coordinated installation crew, from delivery through punch.

QUALITY. DEDICATION. TEAMWORK.

CAPABILITIES

Six disciplines. One roof.

Bringing every fabrication trade in-house is what lets a single buyout cover the whole interior package — and what keeps the seam between wood, stone, metal and glass looking like it was drawn that way.

01

Design-Build Support

We come in early. Material substitutions, detail alternates and value engineering that bring a package back to budget without flattening the design intent.

02

Architectural Millwork

Bars and back bars, casework, wall panelling, ceilings, banquette frames and feature elements — CNC-machined, assembled and finished on our own floor.

03

Stone & Solid Surface

Seamless solid surface and stone for bar tops, servery counters and vanities, templated and fabricated alongside the millwork it lands on.

04

Metalwork

Brass, bronze and steel fabricated in-house: bar rails, reveals, frames and trims built into the woodwork rather than fitted to it afterwards.

05

Custom Glass

Partitions, display shelving and decorative panels, coordinated with millwork and metal so the tolerances close on the first try.

06

Upholstery

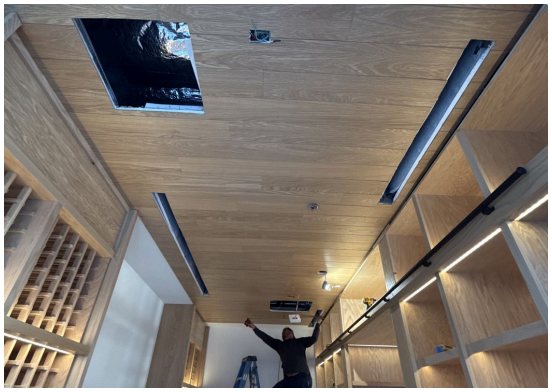

Banquettes, booths and custom seating upholstered in-house in leather and fabric, including channel and tufted work.

PROCESS

From award to close-out, one continuous workflow.

IN FABRICATION AND INSTALLATION — CALDWELL BBQ · PINYON · JAMIE'S BAR

01
Project Review
Scope, drawings and budget reviewed together before anything is priced, with early value-engineering recommendations.

02
Engineering & Shop Drawings
A full submittal package coordinated with the architect, designer and general contractor before fabrication begins.

03
Fabrication
CNC machining, assembly and finishing on our own floor, with lead times confirmed and pricing locked at submittal.

04
Quality Control
Every assembly checked against the approved drawing and finish sample before it is crated.

05
Installation
Our own crews, coordinated with the site schedule — including phased installs, accelerated timelines and weekend work.

06
Weekly Updates
Photos, schedule milestones and coordination items every week, from award through close-out.

CRAFT IN PROGRESS

Built by people who know the detail.

CURVED MILLWORK / SHOP ASSEMBLY

Precision equipment. Skilled hands. One coordinated team.

FOR ARCHITECTS & DESIGNERS

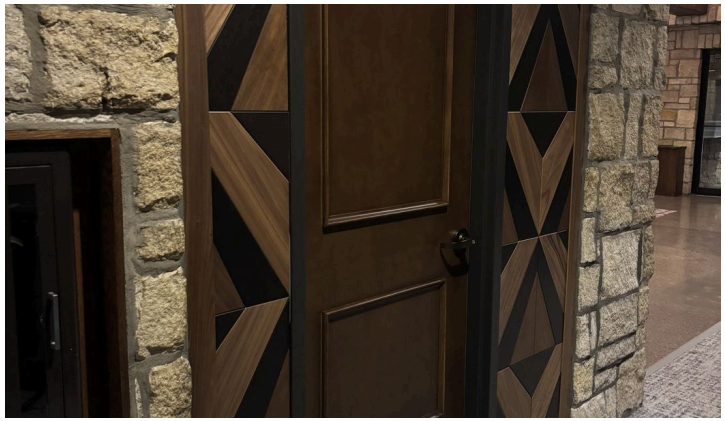

Protecting the detail you drew.

- **Shop drawings you can actually redline.** A complete submittal package before fabrication starts — sections, profiles and finish call-outs at the level the detail requires.
- **Samples and mock-ups.** Species, stain, sheen and edge profiles submitted for approval, with mock-ups where the finish carries the room.
- **Value engineering without value loss.** Alternates proposed as substitutions, not simplifications — the reveal stays, the budget moves.
- **Trades that already talk to each other.** Wood, stone, metal, glass and upholstery detailed by one team, so the joint between them is designed rather than negotiated.
- **One point of contact.** A single project manager answers for the entire package, from submittal through punch.

> *"From award through close-out, every project gets a weekly progress update — photos, milestones and coordination items."*

CLEAVERMAN — PHOENIX, ARIZONA

FACETED PANEL DETAIL — THE OREAD

FOR GENERAL CONTRACTORS & CMS

A subcontractor that pulls its weight.

From bid review through delivery and punch, one project manager coordinates the package. Weekly progress updates keep the site team aligned.

Single-source buyout

Millwork, stone, metal, glass and upholstery under one contract.

Pricing partnership

Early budget input and value engineering with pricing locked at submittal.

Schedule reliability

Coordinated delivery and installation, including phased and accelerated work.

24-hour RFI turnaround

During active fabrication and installation, RFIs are answered inside a day.

Field coordination

One project manager works with supers, adjacent trades and finish contractors.

Weekly status updates

Milestones, progress photos and open coordination items delivered every week.

MARKETS

Where the work goes.

Based in Phoenix and working across the western United States, we ship and install in more than fifteen states — from single tenant-improvement packages to full-property millwork scopes.

Rooms we built.

Hospitality. Hotels. Retail. Senior living. Multifamily.

CLEAVERMAN / PHOENIX

SELECTED WORK / 01

Cleaverman

PHOENIX, ARIZONA
RESTAURANT & BAR

ENTRY STOREFRONT AND SIGNAGE SURROUND

An Art Deco dining room built almost entirely out of millwork: fluted columns that fan open into the ceiling, arched openings and curved banquette walls, a radiused bar under a brass-toned canopy, a glazed wine display, and the storefront and signage surround at the entry. Every element drawn, machined, finished and installed by MCI.

MILLWORK | METAL | GLASS | UPHOLSTERY | INSTALLATION

CLEAVERMAN / PHOENIX, ARIZONA

Craft that defines the room.

RADIUSED BAR & SCULPTURAL CANOPY

FLUTED CORRIDOR PANELS

Curved forms, integrated lighting and precise material transitions.
Custom millwork, coordinated from shop drawings through installation.

SELECTED WORK / 02

Roman

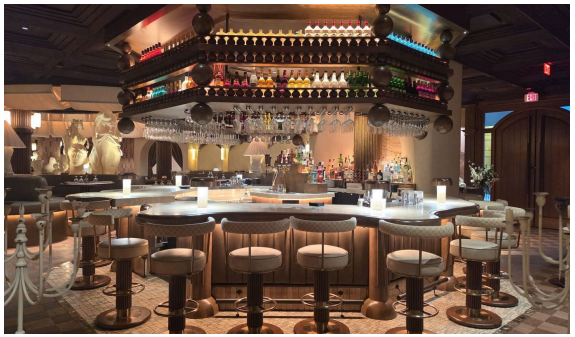

TEMPE, ARIZONA
RESTAURANT & BAR

ENTRY ELEVATION AND SIGNAGE

A sculptural dining room around an island bar: a radiused bar with a fluted base and stone top, colonnaded and arched millwork framing the sculpture gallery, curved banquette seating upholstered in-house, and a figured stone host station under brass.

MILLWORK | STONE | METAL | UPHOLSTERY | INSTALLATION

SELECTED WORK / 03

Trevor's

SCOTTSDALE & PHOENIX, ARIZONA

RETAIL, RESTAURANT & BAR

STORE ELEVATION — PARADISE VALLEY

Four locations built to one standard. Full-height retail and liquor display walls running the length of the store, a stone-topped gift and host counter, lounge and dining seating upholstered in-house, and the bar with its tiled arches — casework, millwork and seating delivered as a single package on a repeatable rollout schedule.

MILLWORK | UPHOLSTERY | SOLID SURFACE | METAL | INSTALLATION

RETAIL DISPLAY AISLES · GIFT COUNTER · SHELVING DETAIL · DINING ROOM · BAR · LOUNGE SHELVING

SELECTED WORK / 04

Riverhouse Hotel

BEND, OREGON

HOTEL

PORTE-COCHERE AND ENTRY

Guest-facing millwork throughout the property: open lobby shelving in blackened steel and wood, market casework built around refrigerated glass display, lounge millwork at the fireplace, and vanities in matched white oak with solid-surface tops. Fabricated and finished in Phoenix, installed in Bend by our own crew.

MILLWORK | SOLID SURFACE | FINISHING | INSTALLATION

SELECTED WORK / 05

Robson Ranch

ELOY, ARIZONA
SENIOR LIVING

RESIDENT DINING ROOM

A resident dining and servery package: stone-clad serving counters with waterfall returns and integrated hot and cold wells, back-of-house casework, and dining rooms wrapped in painted panelling, chair rail and trim.

MILLWORK | STONE & SOLID SURFACE | INSTALLATION

SELECTED WORK / 06

Sparrow

HAPPY VALLEY, ARIZONA

RESTAURANT & BAR

MAIN DINING ROOM AND OPEN KITCHEN LINE

A full front-of-house package: an arched walnut liquor display anchoring the dining room, a wrapped bar with metal-framed glazing above, banquette and booth seating upholstered in-house, and slatted timber ceiling detail carried through the space.

MILLWORK | UPHOLSTERY | METAL | INSTALLATION

SELECTED WORK / 07

The Mission

GILBERT, ARIZONA

RESTAURANT & BAR

STREET ELEVATION

Back-bar arches in stained hardwood with a brass rail and library ladder, a figured stone bar top, and a carved feature cabinet set against the room's masonry column.

MILLWORK | STONE | METAL | INSTALLATION

SELECTED WORK / 08

Buck & Rider

CAMELBACK · GILBERT · MAYO, ARIZONA

RESTAURANT & BAR

RAW BAR AND DISPLAY KITCHEN

Three locations built to the same standard — Camelback, Gilbert and Mayo. A raw bar and display kitchen wrapped in millwork, a long tufted-leather banquette run the length of the dining room, a market counter with integrated wine display, and a full-height wine wall with refrigerated glass cabinets set flush into the joinery.

MILLWORK | UPHOLSTERY | GLASS | METAL

SELECTED WORK / 09

The Vig

MESA, ARIZONA

RESTAURANT & BAR

PATIO ELEVATION — DANA PARK

Reclaimed-timber wall cladding and a host stand built from the same stock, with a long run of custom banquettes and booth seating upholstered in-house.

MILLWORK | UPHOLSTERY | INSTALLATION

Pinyon

SCOTTSDALE, ARIZONA

RESTAURANT & BAR

ENTRY ELEVATION

Market and servery casework in stained hardwood with marble tops and waterfall returns, a long panelled service bar, host station and dining-room millwork detailed to land cleanly against the checkerboard stone floor.

MILLWORK | STONE & SOLID SURFACE | INSTALLATION

The Marshall

TEMPE, ARIZONA
MULTIFAMILY AMENITY

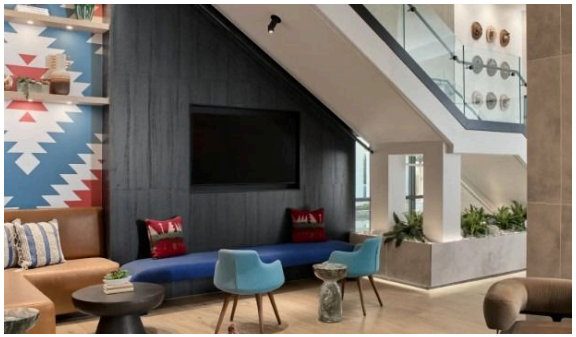

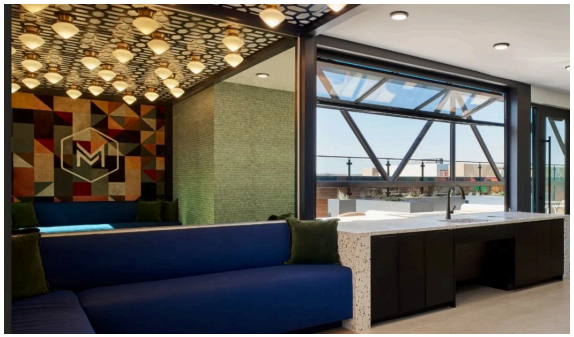

LOBBY RECEPTION DESK

Lobby and amenity millwork for a residential tower: a curved reception desk with a solid-surface face, lounge and coworking casework, a demonstration kitchen island, and a faceted feature ceiling over the sky lounge.

MILLWORK | SOLID SURFACE | METAL | INSTALLATION

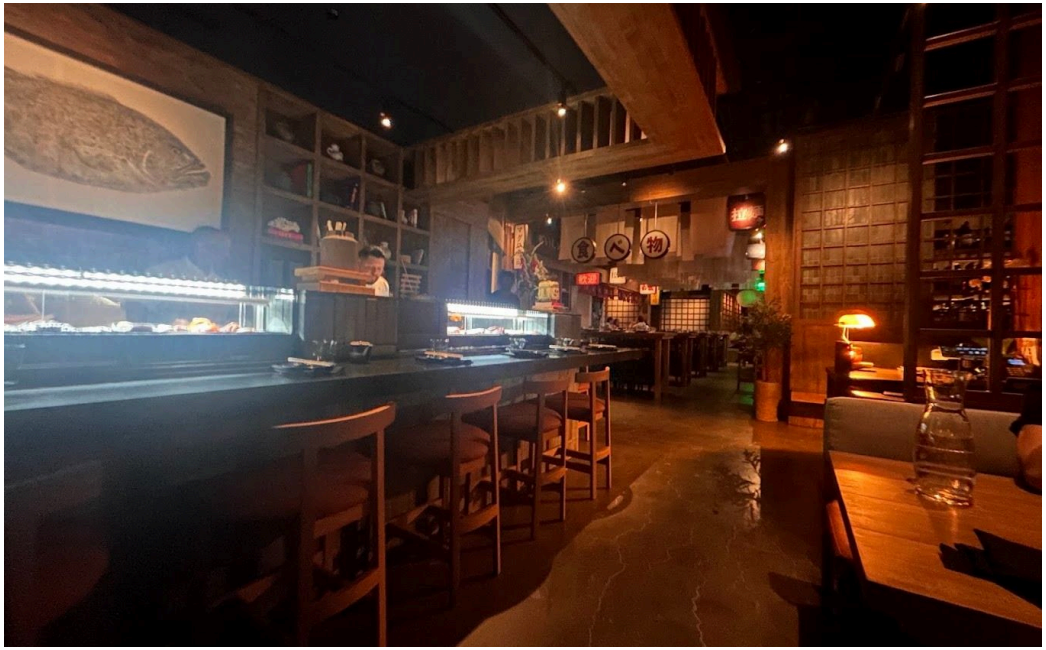

SELECTED WORK / 12

Obon Sushi

PHOENIX, ARIZONA
RESTAURANT & BAR

SUSHI COUNTER AND BACK-BAR MILLWORK

A sushi counter in solid timber with a refrigerated display case set into the millwork, screen partitions and slatted panels, and communal tables built to match the bar.

MILLWORK | METAL | GLASS | INSTALLATION

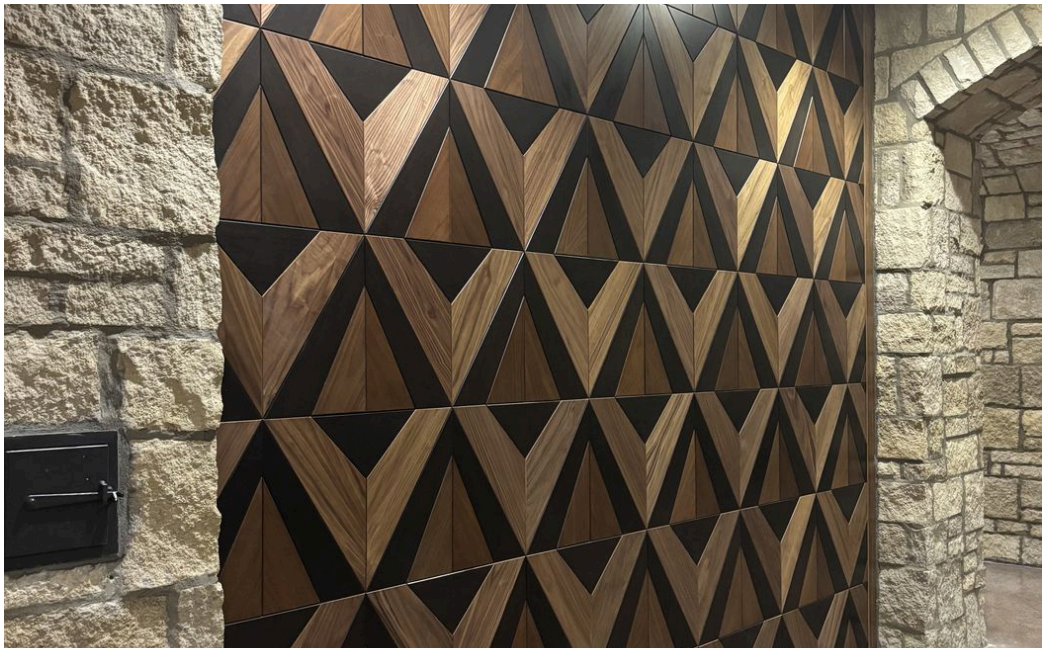

SELECTED WORK / 13

The Oread

LAWRENCE, KANSAS

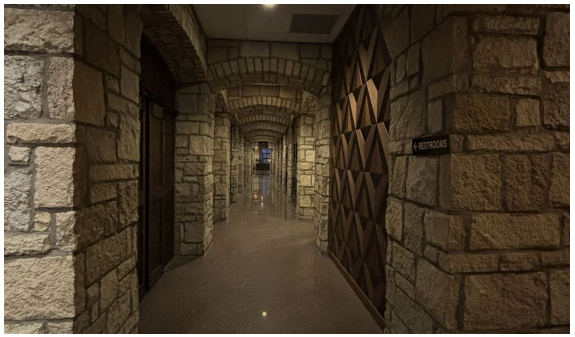

HOTEL

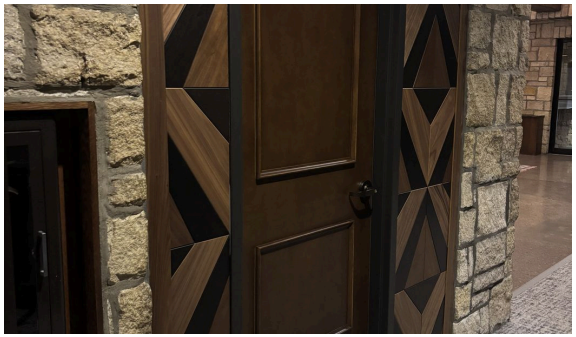

FACETED WALL PANELS — COMPLETED

A faceted wood wall system installed the length of the hotel's stone corridor — hundreds of individually machined triangular panels in alternating species, dry-fit in the shop and scribed to existing masonry on site.

MILLWORK | WALL PANELLING | INSTALLATION

SELECTED WORK / 14

Jet Set Magazine

SCOTTSDALE, ARIZONA

COMMERCIAL

BACKLIT STONE AND DISPLAY CASEWORK

Office and event casework with backlit stone panels: a servery run in dark oak with brass pulls, illuminated display cabinetry, a solid-timber boardroom table and stone vanities in the restrooms.

MILLWORK | STONE | GLASS | INSTALLATION

APA Hotel

SEATTLE, WASHINGTON
